Effortless EFFICIENCY

Worry Free Travel with Flexibility & High Efficiency

Darion EV offers energy and cost-efficient solutions without compromising the high performance and high-functionality characteristics of an MPV.

While the 150 kW drive motor is adapted from reliable and powerful high-speed train technology, the MAGIC BATTERY PRO prioritizes safety, efficient energy management, and fast charging capability.

WONDER

FLEXIBLE MODULAR SYSTEM

Latest-generation design to integrate intelligence and electrification technologies.

Wonder Flexible Modular System (WFMS) is the latest generation architecture, dedicated for vehicles with various levels of electrification.

The highly modular nature of **WFMS** enables flexibility to adapt to intelligent technologies that emphasize better driving experience, faster charging, higher safety level, longer driving range, and more reliable quality.

LING POWER

Hybrid System

Only available in **PHEV**

Superb Energy Efficiency & Super Smooth Driving

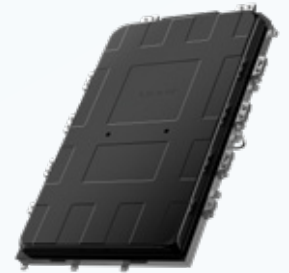

1.5L Atkinson-cycle dedicated hybrid engine with 43.2% thermal efficiency.

Powerful and reliable 145 kW drive motor, adapted from high-speed train technology.

Dedicated hybrid transmission (DHT) with electromagnetic clutch technology, achieving 0.1s response time.

Ultra safe MAGIC Battery Pro, surpassing industry-level standards.

3 ENERGY MODES

EV Mode

The engine is turned off, and the wheels are powered entirely by electricity from the battery.

Series Hybrid

The engine drives a generator to charge the battery, while the battery supplies power to the electric motor.

Parallel Hybrid

The engine and electric motor work in unison to deliver power directly to the wheels.

MAGIC BATTERY PRO

The Safety in the Power You Can Feel

MAGIC Battery Pro combines instant performance with 5 complete safety against fire, water, intrusion, spread, and leaks.
